"New discussions of modern accounting techniques and tools bring accounting practice into the 21st century, while still focusing on building basic skills and background knowledge so students can critically understand their practice"--

Covers each chapter and appendix with reviews of learning objectives, outlines of the chapters, summaries of chapter materials, and additional problems with solutions.

## Read Book Accounting Chapter 12 Study Guide

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

With quality content consistent with the text, the study guide contains chapter outlines linked to the learning objectives and assignments in the text. These include review questions, exercises, and problems. The working papers are designed to help you successfully complete the end-of-chapter exercises and problems.

Prepared by Barbara Chiappetta, Nassau Community College, and Janice Klimek, Central Missouri State University, this guide covers each chapter and appendix with reviews of the learning objectives, outlines of the chapters, summaries of chapter materials, and additional problems with solutions.
