Contemporary Business, Third Canadian Edition, is a comprehensive introductory course. Rooted in the basics of business, this course provides students a foundation upon which to build a greater understanding of current business practices and issues that affect their lives. A wide variety of global issues, ideas, industries, technologies, and career insights are presented in a straightforward, application-based format. Written in a conversational style and edited for plain language, Contemporary Business ensure readability for all students, including students for whom English is their second language. The goal of this course is to improve a student's ability to evaluate and provide solutions to today's global business challenges and ultimately to thrive in today's fast-paced business environment.

When the United States entered World War I, President Woodrow Wilson declared to Congress that the objective was not merely to bring "a new balance of power," but rather to bring a "just and secure peace" to the world by the end of the conflict. In this famous speech, known as "The Fourteen Points," Wilson offered the world a road map toward a more equitable international system in the midst of unprecedented global conflict, including ideas on the interconnectedness of democracy, trade, and the concept of a forum for peaceably resolving international disputes. Even decades after the end of the First World War, Wilson's ideas remained important and influenced many of his successors. But now, in the twenty-first century, there are forces at work in the world that Wilson could never have imagined, and those forces call for a new plan toward peace. In Fourteen Points for the Twenty-First Century: A Renewed Appeal for Cooperative Internationalism, Richard H. Immerman and Jeffrey A. Engel bring together a diverse group of thinkers who take up Wilson's call for a new world order by exploring fourteen new directions for the twenty-first century. The contributors—scholars, policymakers, entrepreneurs, poets, doctors, and scientists—propose solutions to contemporary challenges such as migration, global warming, health care, food security, and privacy in the digital age. Taken together, these points challenge American leaders and policymakers to champion an international effort, not to make America great again, but to work cooperatively with other nations on the basis of mutual respect.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

A major source of financing for the poor and no longer a niche industry Over the past four decades, microfinance—the provision of loans, savings, and insurance to small businesses and entrepreneurs shut out of traditional capital markets—has grown from a niche service in Bangladesh and a few other countries to a significant global source of financing. Some 200 million people globally now receive support from microfinance institutions, with most of the recipients in the developing world. In the beginning, much of the microfinance industry was managed by non-governmental organizations, but today the majority of these institutions are commercial and regulated by governments, and they provide safe places for the poor to save, as well as offering much-needed capital and other financial services. Now out of infancy, the microfinance industry faces major challenges, including its ability to deal with mobile banking and other technology and concerns that some markets are now over-saturated with microfinance. How the industry deals with these and other challenges will determine whether it will continue to grow or will be subsumed within the larger global financial sector. This book is based on the results of a workshop at Lehigh University among thirty-four leaders in the industry. The editors, working with contributions from more than a dozen leading authorities in the field, tell the important story of how microfinance developed, how it has met the needs of hundreds of millions of people, and they address key questions about how it can continue to meet those needs in the future.

Written by a group of prominent shari'ah scholars, academics and practitioners in the field of Islamic finance, this book contains 17 in-depth case studies of shari'ah governance practices and experiences as well as critical analysis of these practices. It serves as a standalone comprehensive reference work on shari'ah governance, containing an overview of its Islamic legal foundations, its evolution and development over the years, current practices and debates on shari'ah governance standards and future prospects for shari'ah governance in the global Islamic finance market.

The emergence of financial technology (FinTech)-related products is causing major disruptions in financial services that enable financial solutions and innovative business models resulting in the fusion of finance and smart mobile technology. As ASEAN is undergoing a paradigm shift from government-to-government (G2G) to community-to-community (C2C) relationships with the emphasis on integration and collaboration, the adoption of FinTech and its possible future directions needs to be studied further. Financial Technology and Disruptive Innovation in ASEAN provides an assortment of innovative research that explores the recent FinTech initiative in ASEAN with respect to its process, strategies, challenges, and outcomes and highlights new business models, products, and services that affect financial markets and institutions and the provision of financial services. While highlighting topics including blockchain technology, cloud computing, and mobile banking, this book is ideally designed for business executives, managers, entrepreneurs, financial and banking practitioners, policymakers, academicians, students, professionals, and researchers.

Examines the governance challenges of cybersecurity through twelve, real-world case studies Through twelve detailed case studies, this superb collection provides an overview of the ways in which government officials and corporate leaders across the globe are responding to the challenges of cybersecurity. Drawing perspectives from industry, government, and academia, the book incisively analyzes the actual issues, and provides a guide to the continually evolving cybersecurity ecosystem. It charts the role that corporations, policymakers, and technologists are playing in defining the contours of our digital world. Rewired: Cybersecurity Governance places great emphasis on the interconnection of law, policy, and technology in cyberspace. It examines some of the competing organizational efforts and institutions that are attempting to secure cyberspace and considers the broader implications of the in-place and unfolding efforts—tracing how different notions of cybersecurity are deployed and built into stable routines and practices. Ultimately, the book explores the core tensions that sit at the center of cybersecurity efforts, highlighting the ways in which debates about cybersecurity are often inevitably about much more. Introduces the legal and policy dimensions of cybersecurity Collects contributions from an international collection of scholars and practitioners Provides a detailed "map" of the emerging cybersecurity ecosystem, covering the role that corporations, policymakers, and technologists play Uses accessible case studies to provide a non-technical description of key terms and technologies Rewired: Cybersecurity Governance is an excellent guide for all policymakers, corporate leaders, academics, students, and IT professionals responding to and engaging with ongoing cybersecurity challenges.

Volume 19 of the Congress Series contains the proceedings of ICCA's 2016 Mauritius Congress, the first ICCA Congress held in Africa. In this volume, renowned practitioners, scholars and jurists from the region and around the world explore the contribution of arbitration to the rule of law and economic development; the conformity of arbitration with international standards of due process and the rule of law; and the benefits and challenges of arbitration in Africa. Topical issues of interest for practitioners, academics and students of arbitration - in the region and internationally - include:  Due process issues in constituting the arbitral tribunal and challenging its members  Interim measures issued by arbitral tribunals and domestic courts  Burden, standard and types of proof in the corruption defence  What to do (and what to avoid doing) to prepare a persuasive case  Do post-award remedies ensure conformity of the arbitral process with the rule of law?  Do rules and guidelines properly regulate the conduct of arbitration?  The interface between domestic courts and arbitral tribunals  What are appropriate remedies for findings of illegality in investment arbitration?  The effect of foreign national court judgments relating to the arbitral award  What does the future hold for investment arbitration in Africa and beyond?

Financial inclusion has been one of the most propagated ideologies in countries, and as a result, significant efforts have been taken to nurture institutions and systems to include an array of socio-economic classes. Various financial institutions and societies have taken steps toward financial inclusion, but to be successful, they need to understand how to accurately target and market their potential customers as well as the new avenues for development. Marketing Techniques for Financial Inclusion and Development is a critical scholarly resource on the marketing techniques adopted by various financial institutions and societies for promoting financial inclusion initiatives for the development of the society at large. Featuring coverage on a broad range of topics such as consumer awareness, financial literacy, and micro-enterprises, this book is geared towards managers, investors, brokers, researchers, and all others within the banking industry.

Developing personal financial skills and improving financial literacy are fundamental aspects for managing money and propelling a bright financial future. Considering life events and risks that unexpectedly present themselves, especially in the light of recent global events, there is often an uncertainty associated with financial standings in unsettled times. It is important to have personal finance management to prepare for times of crisis, and personal finance is something to be thought about in everyday life. The incorporation of financial literacy for individuals is essential for a decision-making process that could affect their financial future. Having a keen understanding of beneficial and detrimental financial decisions, a plan for personal finances, and personalized goals are baselines for money management that will create stability and prosperity. In a world that is rapidly digitized, there are new tools and technologies that have entered the sphere of finance as well that should be integrated into the conversation. The latest methods and models for improving financial literacy along with critical information on budgeting, saving, and managing spending are essential topics in today's world. The Research Anthology on Personal Finance and Improving Financial Literacy provides readers with the latest research and developments in how to improve, understand, and utilize personal finance methodologies or services and obtain critical financial literacy. The chapters within this essential reference work will cover personal finance technologies, banking, investing, budgeting, saving, and the best practices and techniques for optimal money management. This book is ideally designed for business managers, financial consultants, entrepreneurs, auditors, economists, accountants, academicians, researchers, and students seeking current research on modern advancements and recent findings in personal finance.
