Foundations of Nursing in the Community: Community ...

Nursing - nursing is the art and science of caring. The professionalization of nursing has been and is being brought about through the development and use of nursing theory. 1. Concept-building block of theory; complex mental formulations of one's perceptions of the world. 2. Proposition-a statement that proposes a relationship between concepts. 3.

THEORETICAL FOUNDATIONS OF NURSING

Make sure you have the foundation you need to begin a successful nursing career! Foundations of Nursing, 8th Edition covers the skills needed for clinical practice, from nursing interventions to maternity, neonatal, pediatric, geriatric, mental health, and community health care. Guidelines for patient care are presented within the framework of the nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making.

Foundations of Nursing - 8th Edition

Nursing knowledge is derived from basic and nursing sciences, experience, aesthetics, nurses' attitudes, and standards of practice. As nursing continues to grow as a profession, knowledge is needed to prescribe specific interventions to improve patient outcomes. Nursing theories and related concepts continue to evolve.

Theoretical Foundations of Nursing Practice | Nurse Key

Foundations of Nursing Practice: Themes, Concepts and Frameworks by Richard Hogston This is the key text for introductory level nursing, covering all the core areas. Practical and great value, it is comprehensive and also contains new chapters on cutting edge topics.

The fully updated second edition of Foundations of Nursing gives you all the information you need to successfully complete your nursing curriculum. This single volume includes comprehensive, fundamental content in basic nursing, adult health nursing, and maternal and pediatric nursing. Introductory content covers such topics as the health care system, communication, nursing processes, and client teaching. Current topics such as HIPAA, West Nile Virus, SARS, and bioterrorism are also discussed. The adult health nursing section is written following the Nursing Process format. The clinical chapters have been revised to include Nursing Management sections for each disorder, emphasizing the nurse's role in providing competent client care. Nursing Outcomes Classification (NOC) and Nursing Interventions Classification (NIC) have been identified in each Nursing Care Plan. A Case Study included in each chapter uses critical thinking questions to assist the user through the nursing process and to develop a customized plan of care for the client in the scenario. The maternal and pediatric section covers topics such as prenatal care, complications of pregnancy, birth, postpartum care, and newborn care. Childrearing is covered from birth through 18 years of age.

A guide to the fundamentals of nursing for the LPN/LVN, Foundations of Nursing, 7th Edition covers the skills you need for clinical practice, from nursing interventions to maternity, neonatal, pediatric, geriatric, mental health, and community health care. Guidelines for patient care are presented within the framework of the five-step nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. Written by Kim Cooper and Kelly Gosnell, this text includes review questions to help you prepare for the NCLEX-PN® examination! Full-color, step-by-step instructions for over 100 skills show nursing techniques and procedures along with rationales for each. The 5-step Nursing Process connects specific disorders to patient care — with a summary at the end of each chapter. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. UNIQUE! Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. Student-friendly features enhance the learning of nursing skills with summary boxes for Patient Teaching, Health Promotion Considerations,

Complementary and Alternative Therapy, Cultural Considerations, Older Adult Considerations, Home Care Considerations, Safety Alert, and Prioritization, Assignment, and Supervision A focus on preparing for the NCLEX® examination includes review questions and Get Ready for the NCLEX Examination! sections with key points organized by NCLEX Client Needs Categories. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Nursing Diagnosis boxes summarize nursing diagnoses for specific disorders along with the appropriate nursing interventions. Medication Therapy tables provide quick access to actions, dosages, precautions, and nursing considerations for commonly used drugs. NEW! Reorganized chapters make it easier to follow and understand the material. NEW! Icons in page margins indicate videos, audios, and animations on the Evolve companion website that may be accessed for enhanced learning. UPDATED illustrations include photographs of common nursing skills.

This second edition of Foundations of Nursing Practice has been revised and updated specifically to meet the needs of nursing students in all fields of practice The book explains how and why sensitive, safe, evidence-based holistic nursing care is carried out, including topics common to all fields of practice. Core nursing skills are emphasized to reflect the importance of clinical skills as well as the underpinning theory. Aids to learning in each chapter: Learning outcomes Interactive boxes for all age groups and fields of nursing practice Key words and phrases for literature searching Useful websites, references and further reading. This book provides a comprehensive introduction to nursing that will meet the needs of students, nurses returning to practice, mentors and other registered nurses. Relevant to all branches of nursing settings: infants, children, adults, pregnant women, older people and people with a learning disability or mental health problems Themes relevant to all stages and fields of nursing practice include safety, infection prevention and control, managing stress, communication, managing wounds and pressure ulcers, and dealing with loss Scenarios develop the skills of evidence-based practice, critical thinking, reflection and health promotion, and encourage further learning The areas of psychology, sociology, physiology and pathology are clearly related to nursing practice Key principles of health promotion, the law and ethics, the human lifespan and development are explained in earlier chapters, then applied in later chapters Cultural diversity information helps with understanding the needs of people from different backgrounds Person-centred approach encourages problem solving and application to practice Evidence-based practice is explicit throughout, and best-practice guidelines underpin exploration/explanation of nursing care. Easy-reference Glossary at the back of the book. Meets the requirements of the new pre-registration nursing curriculum including the NMC (2010) competencies and Essential Skills Clusters Greater emphasis on safeguarding vulnerable people, maternal health and first aid Self-test questions with answers available on accompanying website.

Reinforce your understanding of LPN/LVN nursing skills - and prepare for the NCLEX-PN(R) exam! Corresponding to the chapters in Foundations of Nursing, 9th Edition, this study guide provides a variety of exercises to help you review, practice, and apply nursing concepts and principles. Review questions make it easier to achieve the chapter objectives from the textbook, and critical thinking activities help you develop clinical judgment skills. Now with Next Generation NCLEX(R) (NGN)-style case studies and questions, this guide provides you with an effective study tool for the NGN exam. Variety of exercises reinforces student understanding of nursing fundamentals with multiple-choice, matching, and select-all-that-apply questions, as well as crossword puzzles. Critical thinking activities ask students to apply their knowledge to clinical scenarios. Textbook page references are included for questions and activities, simplifying lookup and review. Answer key is provided on the Evolve website for Foundations of Nursing. NEW! Next Generation NCLEX(R) (NGN)-style questions provide practice for the new question formats on the NCLEX-PN(R) exam. NEW! Updated exercises correspond to the new and revised content in Foundations of Nursing, 9th Edition. NEW! Case studies allow students to practice and apply clinical judgment skills.

Get more out of your textbook with this helpful study tool! Corresponding to the chapters in Cooper and Gosnell's Foundations of Nursing, 7th Edition, this study guide helps you learn, understand, and apply the fundamentals of LPN/LVN nursing. Hundreds of labeling, matching, and fill-in-the-blank questions are included, each with textbook page references. It also includes critical thinking questions based on clinical scenarios, and multiple-choice and alternate-format questions to help you review for the NCLEX-PN® examination. Learning activities help you meet content objectives, and include crossword puzzles, labeling, matching, completion, identification, NCLEX® exam-style multiple-choice review questions, and critical thinking questions. Page references are included for all activities except for the critical thinking questions, to facilitate your review. NEW! An increased emphasis on NCLEX® review prepares you more effectively for the NCLEX-PN® examination, with more NCLEX-style alternate-format type questions and more critical thinking activities.

Integrates the science of self-care with other nursing and multidisciplinary perspectives This is the first text for the Professional Nursing Practice course in RN to BSN curriculum to present a conceptual framework for contemporary nursing practice based on the science of self-care that also incorporates other nursing and multidisciplinary perspectives. Built upon the premise that nursing is both a caring and a knowledge-based profession, this cutting-edge text illustrates how to attain and integrate knowledge from nursing theory and theories of related disciplines to achieve optimal evidence-based nursing practice. Using case studies to demonstrate the relationship between nursing theory and practice, the text underscores the importance of having a deep understanding and conceptual model of the unique role of nursing in society and its practice domain. The text instills a foundational understanding of the science of self-care and its contribution to contemporary nursing. It describes how this paradigm is gaining recognition as an effective anti-burnout strategy and demonstrates how it can be applied. Case examples from a variety of clinical situations integrated with nursing theory demonstrate the variables needed to achieve optimal nursing practice. The book illustrates what data to collect, how to analyze that data, how to design and implement intervention strategies, and how to determine their effectiveness. Key concept boxes, measurable objectives with critical thinking questions, and learning activities reinforce content. Additionally, more complex cases included at the end of the text and frequent links to nursing literature provide fodder for more in-depth analysis. Key Features: Provides an integrative model for nursing practice based on self-care that is useful in all clinical settings Illustrates how to attain and integrate knowledge from the science of self-care with other nursing theories Demonstrates the relationship between theory and practice through case studies Introduces students to the importance of recording and analyzing data to achieve evidence-based practice Includes measurable objectives with review questions at the end of chapters and many other pedagogical features

Designed for the Diploma of Nursing, Foundations of Nursing, Enrolled Nurses, Australia and New Zealand edition is mapped to the HLT54115 training package competencies, and aligns to the revised Standards for Practice for the Enrolled Nurse. Written to equip the enrolled nurse with current knowledge, and basic problem-solving and critical-thinking skills to successfully meet the demanding challenges of today's health care, the text clearly explains concepts and definitions, and scaffolds knowledge. The student-friendly text provides a clear and fresh approach to the study of nursing; it is straightforward and heavily illustrated with colour photos of procedures.

With concise, focused coverage of community health nursing, Foundations of Nursing in the Community: Community-Oriented Practice, 4th Edition provides essential information for community practice - from nursing roles and care settings to vulnerable population groups. The book uses a practical, community-oriented approach and places an emphasis on health promotion and disease prevention. Practical application of concepts is highlighted throughout the text in case studies, critical thinking activities, QSEN competencies, and Healthy People 2020 objectives. Evidence-Based Practice boxes highlight current research findings, their application to practice, and how community/public health nurses can apply the study results. Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels, to reinforce the concept of prevention as it pertains to community and public health care. Focus on health promotion throughout the text emphasizes initiatives, strategies, and interventions that promote the health of the community. Clinical Application scenarios offer realistic situations with questions and answers to help you apply chapter concepts to practice in the community. Case Studies provide client scenarios within the community/public health setting to help you develop assessment and critical thinking skills. What Would You Do? boxes present problem-solving challenges that encourage both independent and collaborative thinking required in community settings. How To boxes offer specific instructions on nursing interventions. NEW! QSEN boxes illustrate how quality and safety goals, competencies, objectives, knowledge, skills, and attitudes can be applied in nursing practice in the community. NEW! Feature box on Linking Content to Practice highlights how chapter content is applied in the role of public/community health nursing. NEW! Healthy People 2020 objectives in every chapter address the health priorities and emerging health issues expected in the next decade.
