Community policing is a philosophy and organizational strategy that expands the traditional police mandate of fighting crime to include forming partnerships with citizenry that endorse mutual support and participation. The first textbook of its kind, Community Policing: A Contemporary Perspective delineates this progressive approach, combining the accrued wisdom and experience of its established authors with the latest research based insights to help students apply what is on the page to the world beyond. The text has been revised throughout to include the most current developments in the field such as how the current climate of suspicion associated with terrorism threats affects the trust so necessary for community policing, and how the newest technologies can be harnessed to facilitate police interactions with citizens. Additionally, the book now explores the fragmentation of authority and emphasizes the importance of partnerships among the numerous law enforcement agencies, government agencies, and private social service agencies. Introducing the fundamentals of ethical theory, Ethics in Criminal Justice: In Search of the Truth, Seventh Edition, exposes the reader to the ways and means of making moral judgments by exploring the teachings of the great philosophers, sources of criminal justice ethics, and ethical issues in the criminal justice system. It is presented from two perspectives: a thematic perspective that addresses ethical principles common to all components of the discipline, and an area-specific perspective that addresses the state of ethics in criminal justice in the fields of policing, corrections, and probation and parole. The seventh edition features discussion of current critical issues in criminal justice: accusations of racism, police shootings, stop and frisk policy, marijuana laws, mass incarceration, life sentences, prison privatization, the swift and certain deterrence model of probation, excessive probation fees, and the Good Lives Model in corrections. The seventh edition also offers completely revised coverage of capital punishment and the rehabilitation debate, and a discussion of how juvenile justice often fails to live up to its ideals. Finally, the book features new case studies of recent ethical dilemmas in criminal justice to enhance students' understanding of real-life ethics decision-making. Suitable for advanced undergraduates or graduate students in criminal justice programs in the US and globally, this text offers a classical view of ethical decision-making and is well-grounded in specific case examples.

This book provides an examination of noble cause, how it emerges as a fundamental principle of police ethics and how it can provide the basis for corruption. The noble cause — a commitment to "doing something about bad people" — is a central "ends-based" police ethic that can be corrupted when officers violate the law on behalf of personally held moral values. This book is about the power that police use to do their work and how it can corrupt police at the individual and organizational levels. It provides students of policing with a realistic understanding of the kinds of problems they will confront in the practice of police work.

The criminal justice process is dependent on accurate documentation. Criminal justice professionals can spend 50-75% of their time writing administrative and research reports. Report Writing for Criminal Justice Professionals, Fifth Edition provides practical guidance—with specific writing samples and guidelines—for providing strong reports. Much of the legal process depends on careful documentation and the crucial information that lies within, but most law enforcement, security, corrections, and probation and parole officers have not had adequate training in how to provide well-written, accurate, brief, and complete reports. Report Writing for Criminal Justice Professionals covers everything officers need to learn—from basic English grammar to the difficult but often-ignored problem of creating documentation that will hold up in court. This new edition is updated to include timely information, including extensive coverage of digital reporting, updates on legal issues and privacy rights, and expanded coverage of forensics and scientific reporting.
