Book Review – Excel VBA: for Non-Programmers (Programming in Everyday Language) Posted on November 13, 2014 by Vitosh Posted in Review. The current article reviews a VBA book for MS Excel. First things first – I am not sure what should be done to pursue the non-IT people, that VBA is not something difficult and every hour you spend, trying to master it would pay out by saving 20 others, pressing ctrl +arrows and copying endless ranges in Excel.

For the “non-programmers” among us who have to create the same reports in Microsoft Excel time and again, and would like to automate the process. For people who wish to develop forms, screens and “machines” for data management within their organization. For individuals who wish to turn Microsoft Excel into a powerful tool in their daily work. During the writing process I tried to visualize Microsoft Excel software and the VB editor through the eyes of the end users;
