An important book on  
liberating ourselves from  
the state of “waking sleep”  
in which we live our lives,  
as taught by one of the most  
influential spiritual  
teachers of the 20th century  
As the closest pupil of the  
charismatic spiritual master  
G. I. Gurdjieff (1866-1949),  
Jeanne de Salzmann was  
charged with carrying on his  
teachings of spiritual

transformation. Known as the Fourth Way or "The Work," Gurdjieff's system was based on teachings of the East that he adapted for modern life in the West. Now, some twenty years after de Salzman's death, the notebooks that she filled with her insights over a forty-year period (and intended to publish) have been translated and edited by a small group of her family and followers. The result is this long-awaited guide to Gurdjieff's teaching, describing the routes to be traveled and the landmarks encountered along the way. Organized according to themes, the

chapters touch on all the important concepts and practices of the Work, including:

- Awakening from the sleep of identification with the ordinary level of being
- Self-observation and self-remembering
- Conscious effort and voluntary suffering
- Understanding symbolic concepts like the Enneagram
- The Gurdjieff Movements, bodily exercises that provide training in Presence and the awareness of subtle energies
- The necessity of a "school," meaning the collective practice of the teaching in a group

Madame de Salzmann brings to the Work her own strong, direct language and

personal journey in learning to live that knowledge of a higher level of being, which, she insists, “you have to see for yourself” on a level beyond theory and concept. De Salzmann consistently refused to discuss the teaching in terms of ideas, for this Fourth Way is to be experienced, not simply thought or believed.

In *The Mastery of Love*, don Miguel Ruiz illuminates the fear-based beliefs and assumptions that undermine love and lead to suffering and drama in our relationships. Using insightful stories to bring

his message to life, Ruiz shows us how to heal our emotional wounds, recover the freedom and joy that are our birthright, and restore the spirit of playfulness that is vital to loving relationships. The Mastery of Love includes: \* Why "domestication" and the "image of perfection" lead to self-rejection \* The war of control that slowly destroys most relationships \* Why we hunt for love in others, and how to capture the love inside us \* How to finally accept and forgive ourselves and others "Happiness can only come from inside of you and is the result of your love.

When you are aware that no one else can make you happy, and that happiness is the result of your love, this becomes the greatest mastery of the Toltec: the Mastery of Love." - don Miguel Ruiz

with your environment. Illness appears as a result of a deviation from the norm. You can change any situation by using number sequences and receiving their vibrations. Through the use of Dr. Grigori Grabovoi's methods, you can return to the Divine norm. This book was born to help you achieve your goals.

just the symptoms. Balancing the emotional body and returning to our core essence restores us to greater health, ease and happiness. This fantastic CD package collects together some of Roy's most powerful teachings on this subject, along with meditations that will allow you to implement its incredible effects in your life. The first section provides an excellent introduction to Roy's background and how he came to heal himself using his Omega Healing technique. The second section features four incredible meditations that will allow you to heal every aspect of your life. The

first provides energy and vitality. The second is a relaxing visualisation for the end of the day. The third helps with releasing feelings. The fourth helps heal traumas in our past lives. These meditations, recorded live in London and exclusively for Hay House showcase one of the brightest new voices in healing.

This is possible because everything is part of the zero point energy field, what some physicists have called "The Mind of God."

initial coinage by the Russian scholar V. M. Mikhailovsky in the late 19th century. In this book, three leading scholars, representing different branches of the humanities, dwell on the current status of shamanic practices and conceptions of the soul, both as 'etic' scholarly categories in historical research and as foci of spiritual revitalization among the indigenous populations of post-Soviet Siberia. Framed by an introduction and a critical afterword by historian of religions Ulf Drobin, the three essays address issues crucial to the understanding
