This is key for readability. Keep sentences to 20 words or less. Write simple, clear sentences. Use the active, rather than passive, voice. For example, write "We will develop an experiment," not "An experiment will be developed." Be succinct. Use a clear and concise writing style so that a non-expert may understand the proposed research.

The key is to look beyond the blog post you're writing and draw your readers (particularly new ones) into the story (both past and future) of your blog. If you can get them to see that your blog is much more than the post they're reading, you might just find you have a reader that engages with you for years to come.
