Many problems encountered by engineers developing code for specialized Symbian subsystems boil down to a lack of understanding of the core Symbian programming concepts. Developing Software for Symbian OS remedies this problem as it provides a comprehensive coverage of all the key concepts. Numerous examples and descriptions are also included, which focus on the concepts the author has seen developers struggle with the most. The book covers development ranging from low-level system programming to end user GUI applications. It also covers the development and packaging tools, as well as providing some detailed reference and examples for key APIs. The new edition includes a completely new chapter on platform security. The overall goal of the book is to provide introductory coverage of Symbian OS v9 and help developers with little or no knowledge of Symbian OS to develop as quickly as possible. There are few people with long Symbian development experience compared to demand, due to the rapid growth of Symbian in recent years, and developing software for new generation wireless devices requires knowledge and experience of OS concepts. This book will use many comparisons between Symbian OS and other OSes to help in that transition. Get yourself ahead with the perfect introduction to developing software for Symbian OS.

North met South--an enduring love affair began--the birth of a President resulted. This 1853 story, told through one year of courtship letters between New York City's Theodore Roosevelt (Senior) and Miss Mittie Bulloch of Georgia, echoes through time. Her heritage is one of patriotism, education, and Southern social standing. He is the fifth son of a wealthy New York City businessman of Dutch heritage. Their courtship, conducted mostly through letters, provides the reader with an intimate peek into their personal love story. Transcribed and presented just as written, these love letters tell the story not only of two young lovers but of the social mores of 1853. Connie M. Huddleston and Gwendolyn I. Koehler allow the letters to stand on their own, presenting only the necessary background to the story, a glimpse of antebellum life, and explanations of persons and events as needed.
