To calculate PLS, the percentage of pure seed is multiplied by the percentage of germination, and the product is divided by 100.

For example, 85% pure seed x 72% germination / 100 = 61%

Bookmark File PDF

Practical Math For The

Turfgrass Professional

PLS. To determine how much seed to plant, divide the percentage PLS into 100. Thus, in this example, $100/61 = 1.6$.
