Thus, during the adolescent years, teen peer groups become increasingly important as teens experience more closeness in these friendships and more gratifying relationships with their peers as a result. Teens now turn to one another, instead of their families, as their first line of support during times of worry or upset.

Teens and Peer Relationships - Child Development Theory ...

Adolescence is the period of transition between childhood and adulthood. It includes some big changes—to the body, and to the way a young person relates to the world. The many physical, sexual, cognitive, social, and emotional changes that happen during this time can bring anticipation and anxiety for both children and their families.
