**Receptions (Chapter 2) - The Cambridge Companion to Shelley**

Book description: The Cambridge Companion to Frankenstein consists of sixteen original essays on Mary Shelley's novel by leading scholars, providing an invaluable introduction to Frankenstein and its various critical contexts. Theoretically informed but accessibly written, this volume relates Frankenstein to various social, literary, scientific and historical contexts, and outlines how critical theories such as ecocriticism, posthumanism, and queer theory generate new and important ...

It became possible to write him off as a man "wandering around Italy in a big shirt trying to get laid", in the words of a BBC comedy that picked up on the early cult of Shelley. 4 Palgrave's Golden Treasury, the major anthology of the age, canonized and deodorized Shelley's poetry, offering specimens of "verse" seemingly unswilled by political interests. Thus began the entirely false division between Shelley the poet, who didn't care about politics, and Shelley the activist, who ...

Percy Bysshe Shelley (1792–1822) was an extraordinary poet, playwright and essayist, revolutionary both in his ideas and in his artistic theory and practice. This 2006 collection of original essays by an international group of specialists is a comprehensive survey of the life, works and times of this radical Romantic writer. Three sections cover Shelley's life and posthumous reception; the basics of his poetry, prose and drama; and his immersion in the currents of philosophical and political thinking and practice. As well as providing a wide-ranging look at the state of existing scholarship, the Companion develops and enriches our understanding of Shelley. Significant new contributions include fresh assessments of Shelley's narratives, his view of philosophy, and his role in emerging views about ecology. With its chronology and guide to further reading, this lively and accessible Companion is an invaluable guide for students and scholars of Shelley and of Romanticism.

Known from her day to ours as 'the Author of Frankenstein', Mary Shelley indeed created one of the central myths of modernity. But she went on to survive all manner of upheaval - personal, political, and professional - and to produce an oeuvre of bracing intelligence and wide cultural sweep. The Cambridge Companion to Mary Shelley helps readers to assess for themselves her remarkable body of work. In clear, accessible essays, a distinguished group of scholars place Shelley's works in several historical and aesthetic contexts: literary history, the legacies of her parents William Godwin and Mary Wollstonecraft, and of course the life and afterlife, in cinema, robotics and hypertext, of Frankenstein. Other topics covered include Mary Shelley as a biographer and cultural critic, as the first editor of Percy Shelley's works, and as travel writer. This invaluable volume is complemented by a chronology, a guide to further reading and a select filmography.

Sixteen original essays by leading scholars on Mary Shelley's novel provide an introduction to Frankenstein and its various critical contexts.

Sylvia Plath is widely recognized as one of the leading figures in twentieth-century Anglo-American literature and culture. Her work has constantly remained in print in the UK and US (and in numerous translated editions) since the appearance of her first collection in 1960. Plath's own writing has been supplemented over the decades by a wealth of critical and biographical material. The Cambridge Introduction to Sylvia Plath provides an authoritative and comprehensive guide to the poetry, prose and autobiographical writings of Sylvia Plath. It offers a critical overview of key readings, debates and issues from almost fifty years of Plath scholarship, draws attention to the historical, literary, national and gender contexts which frame her writing and presents informed and attentive readings of her own work. This accessibly written book will be of great use to students beginning their explorations of this important writer.

More than any other period of British literature, Romanticism is strongly identified with a single genre. Romantic poetry has been one of the most enduring, best loved, most widely read and most frequently studied genres for two centuries and remains no less so today. This Companion offers a comprehensive overview and interpretation of the poetry of the period in its literary and historical contexts. The essays consider its metrical, formal, and linguistic features; its relation to history; its influence on other genres; its reflections of empire and nationalism, both within and outside the British Isles; and the various implications of oral transmission and the rapid expansion of print culture and mass readership. Attention is given to the work of less well-known or recently rediscovered authors, alongside the achievements of some of the greatest poets in the English language: Wordsworth, Coleridge, Blake, Scott, Burns, Keats, Shelley, Byron and Clare.

An accessible and wide-ranging study of the history of the book within local, national and global contexts.

In The Cambridge Companion to Keats, leading scholars discuss Keats's work in several fascinating contexts: literary history and key predecessors; Keats's life in London's intellectual, aesthetic and literary culture and the relation of his poetry to the visual arts. These specially commissioned essays are sophisticated but accessible, challenging but lucid, and are complemented by an introduction to Keats's life, a chronology, a list of contemporary people and periodicals, a source reference for famous phrases and ideas articulated in Keats's letters, a glossary of literary terms and a guide to further reading.

This book gathers diverse critical treatments from fifteen scholars of the posthuman and posthumanism together in a single volume.

Key dimensions of Dostoevskii's writing and life are explored in this collection of specially commissioned essays. While remaining accessible to an undergraduate and non-specialist readership, the essays as a whole seek to renegotiate the terms in which Dostoevskii and his works are to be approached. This is achieved by replacing the conventional 'life and works' format by one that seeks instead to foreground key aspects of the cultural context in which those works were produced. Contributors trace the often complex relationship between those aspects and the processes accompanying the creation of Dostoevskii's art. They examine topics such as Dostoevskii's relation to folk literature, money, religion, the family and science. The essays are well supported by supplementary material including a chronology of the period and detailed guides to further reading. Altogether the volume provides an invaluable resource for scholars and students.

In this Companion, leading scholars and critics address the work of the most celebrated and enduring novelists from the British Isles (excluding living writers): among them Defoe, Richardson, Sterne, Austen, Dickens, the Brontës, George Eliot, Hardy, James, Lawrence, Joyce, and Woolf. The significance of each writer in their own time is explained, the relation of their work to that of predecessors and successors explored, and their most important novels analysed. These essays do not aim to create a canon in a prescriptive way, but taken together they describe a strong developing tradition of the writing of fictional prose over the past 300 years. This volume is a helpful guide for those studying and teaching the novel, and will allow readers to consider the significance of less familiar authors such as Henry Green and Elizabeth Bowen alongside those with a more established place in literary history.
